

HIGHLY SPECIALIZED INDUSTRIES now go into high schools to discuss needs of companies to students before the youths finish their high school training. Such was the case Friday morning, February 15, when Glenn E. Scott, public information supervisor for the Southwestern Bell Telephone Company spoke to Yoe students on a number of the students showing particular interests in far-advanced products coming from electronics and soon to be on the public market. The students are Allene Jacobs, Mary Alice Duncan, Sherron Laywell, Joe Paul Gerrick and Burns Thomas. Scott explained complications now becoming involved in telephone work will soon bring about the need of qualified engineers for linesmen's and other work which today can be done by those with only ordinary high school education. These future engineers will need preliminary courses especially in mathematics and sciences in high school prior to their college training.

## Comedy Antics Juniors' Roles

"I'm A Family Crisis" is a comedy being presented by members of the junior class at Yoe High School Auditorium at 8 p.m. Friday, February 22.

Playing the leading role is Myrna Gail Jackson, who as Peggy Morgan talks too much and is tricked into an agreement to remain absolutely silent for 48 hours regardless of what happens. Her girlfriend, Gwen Harris, as played by Helen Matula is assigned the task of seeing she keeps the agreement.

Comical tactics by the entire cast and laughter for the audience is due to reign supreme as Gwen decides to snare Peggy's boyfriend, Willie Carter, portrayed by Make McDermott for herself. Meanwhile the silent Peggy's parents decide something far more serious than an atomic explosion is troubling their daughter and call in doctors and medical specialists.

## Cameron Hotrod Enthusiasts Seek Understanding Of Adults

A total of 19 Cameron youths are currently holding regular weekly meetings in an attempt to form a "hotrod" club to be known as the Accelerators.

Organizational plans now underway include formation of club by-laws meeting the standards of the national association. These by-laws require all members to learn and observe city and state traffic laws whenever they are operating vehicles on a public thoroughfare. Those reported to the police for violations of such traffic regulations are suspended from the club for a length of time depending upon the seriousness of the violation.

Youths forming the club say both the city police and Texas Highway Patrol will be notified of the license numbers of all members. This is being adopted by the youths to assure Cameron adults they are forming the club for a purpose of accomplishment rather than of one of recklessness and destruction.

Members of the group being formed point out that they wish to purchase a club car and build it into a vehicle capable of setting new speed records. These youths further point out that all races are approved by the National Hotrod Association are on straight-aways and are races against time rather than against other vehicles. Such races can result in making the Cameron boys better acquainted with safety in driving, repair of vehicles and provide a useful past time for those involved.

They expressed the need of some business or organization to sponsor the group as such is needed to become affiliated with the national group. It was also explained that adults and parents

## Local Senior Visits College For Weekend

Paul C. Freeman, son of Mr. and Mrs. Tyson Freeman of Cameron, was among the approximately 300 high school students attending the annual weekend at Southwestern University on February 8-10.

Howard A. Long, director of admissions at the college, serves as chairman of these events. A taste of college life is given high school students attending the college for a weekend from all sections of the state.

begin bursting at the 48 hours end and Peggy goes into action.

Other members of the cast and their corresponding roles include Ann Graham as Betsy Morgan; Janice Bridges, Mrs. Morgan; Ray Green, Dr. Morgan; Marjorie Wilkinson, Nellie Grimstead; Clifford Swift, Uncle Syl; Cindy Curtis, Julia Preston; Wanda Kirk, Mary Lou Thomas; Peggy Burke, Mrs. Tabor, and Dwayne Jekel, as the attendant.

## Good Citizen Awards Given

Miss Barbara Jo Young, daughter of Mr. and Mrs. Dick Young, has been named the Daughters of the American Revolution Good Citizen Award winner by the Sarah McCalla chapter of Milam County.

Miss Nola Albrecht of Rockdale, a senior in Rockdale High School, will receive a similar award to be given by the local DAR chapter.

Announcement of the winners was made at a recent meeting of the group at the home of Mrs. W. G. Gillis. Mrs. Alice McGhee was co-hostess.

A senior at Yoe High School, Miss Young is editor of the Yoe-man Chant, school newspaper, and pianist for the Yoe High School Chorus. During her junior year, she was a member of the student council and represented the local group at the state convention. She has been a member of the annual staff and of the band for four years and has belonged to the Junior Historian group for two years. Barbara is 18 years old.

Miss Albrecht, daughter of Mr. and Mrs. Leon Albrecht, is a senior honor student. She is a newspaper and annual staff member and belongs to the Quill and Scroll honor society. A member of the student council for two years, Miss Albrecht also received the outstanding English award in 1956. She was elected junior class favorite.

Good citizen pins will be presented to the winners in the spring.

Newly-elected officers of the DAR are Mrs. J. C. Freeman of Maysfield, regent, and Mrs. Henry Hefley, vice-regent.

Members voted to send \$10 in honor of the late Mrs. B. J. Baskin to the state DAR house in Austin.

Mrs. Aetna Smith will represent the Sarah McCalla chapter at the state meeting of the DAR in Mineral Wells on March 12. Alternates are Mrs. D. E. Curry of Lott and Mrs. T. H. Coulter of Rockdale.

## FBI Special Agent To Speak Here Soon

Leonard Blaylock, special agent in charge of the FBI offices in the San Antonio Division, will be guest speaker at the annual Chamber of Commerce Banquet in Cameron on Monday, March 4.

A native of Cameron and graduate of Yoe High School, Blaylock is 39-years of age, married and has two sons, Leonard III and William Agell. His wife is the former Marjorie Adams of Waco and a graduate of Baylor University. Blaylock graduated from Baylor in June, 1940, with a LLB degree.

He is a member of the Bar of the State of Texas and Bar of Su-

preme Court of the United States. Before his appointment as a special agent in the Federal Bureau of Investigation in October, 1940, he practiced law in Cameron for about four months.

Prior to his transfer as special agent in charge of the San Antonio Division in February, 1957, Blaylock served with FBI Divisions in Boston, Massachusetts; Washington Field Division; FBI Headquarters; Albany, New York, as assistant special agent in charge; Buffalo, New York, special agent in charge, and Indianapolis, Indiana, special agent in charge.

# Terry Serving As Police Chief Here

## Equalization Board Members Named By Council At Meeting

Members of the Cameron City Council tabled for future reference the hiring of a chief of police at the second regular meeting for February last Tuesday night.

Postponement of selecting a permanent head for the city's law enforcement department was explained as being necessary in order for councilmen to have more time in making a study of applicants seeking the job. City Secretary Wayne Wieser said the city had received a total of 10 applications as of Tuesday.

All councilmen agreed to accept Mayor Robert Weems' temporary appointment of Marshall

Terry as acting chief until such time as a permanent replacement can be hired. Under the present tentative plan, Bill Richter will continue to serve as meter man and utility fire truck driver. John Dodson is now serving as the patrolman to carry out the service of night watchman upon these nights that William (Brandy) Brandenburg and George McCall have off during the week.

Councilmen met last Saturday afternoon at which time they reviewed a number of applications available at that time in an effort

to eliminate a portion of the applicants. They again met just before the regular meeting began Tuesday night and at that time discussed applicants and interviewed several.

Applicants from various points throughout the state are seeking the job. One councilman said following the meeting that of those applying, several have definitely

been ruled out but that about five are still being considered as possible chief. No indication was given that the city would or would not continue to accept applications.

Equalization Board: John A. Smith, J. E. Flinn and Claude Tripps were named unanimously by the council as members of the Cameron Equalization

Board for the current year. These men as members of this board will hold meetings at which they will determine fair and equal taxes for property owners within the city. Members of the council said under this board, they hope a more sound tax program can be laid out and that there are possibilities while some See "Terry", back page

## Pat McClaren, Leland Wiedo Show Champion Steers Here

Pat McClaren of the County-Wide 4-H Club showed the Grand Champion Steer at the Milam County Junior Livestock Show last Saturday, February 16, with Leland Wiedo of the Buckholts FFA showing the Grand Reserve Champion.

Grand Champion was bred by Seth Turner of Dublin and will also be shown in the Houston Fat Stock Show. This animal has been fed by Miss McClaren, who is the daughter of Mr. and Mrs. H. L. McClaren of Cameron.

Reserve Champion of the Milam show was a 975-pound white short-horn named "Little One." This animal was bred by Joe Zajicek and Sons of Buckholts and fed by young Wiedo. Joe Dean Zajicek exhibited the steer in Cameron and will show "Little One" in the Houston Fat Stock Show while Leland is showing his other calf, "Big Boy", also a white shorthorn.

## Texas Coach Speaks In Cameron March 2

Ex-students of the University of Texas are having their annual banquet Saturday night, March 2, at the Milam Coffee Shop.

Jack Swarthout, one of the new football coaches at the University of Texas who came from the University of Washington with Coach Royal will be speaker at the banquet this year.

The secretary of the Milam County Club suggests that all former students of The University of Texas contact Dana Kestenberg or Guss Elley in Cameron and George Bredt in Rockdale for reservations.

## Cameron Weather Includes Rain

Rainfall in Cameron over the past weekend and up until 6 p.m. Tuesday was slow with a total of .96 inch falling according to Cameron Water Department Superintendent Alvin Heft.

Elsewhere in the area, Rockdale reports .82 inch for Monday with a three-day total as of that time of .90 inch and Rosebud reports .91 inch for Monday with a three-day total of 1.16 inches.

Heft, whose report is official for the U. S. Weather Bureau, reports the following high and low temperatures for the city for the week ending at 6 p.m. Tuesday.

	High	Low
Wednesday, February 13	72	58
Thursday, February 14	77	61
Friday, February 15	84	62
Saturday, February 16	77	48
Sunday, February 17	64	47
Monday, February 18	61	43
Tuesday, February 19	51	46

## Local Guardsmen On Active Duty

Two local Guardsmen, members of Battery C, 649th Anti-aircraft Artillery Battalion, departed on Saturday by bus for Fort Bliss, Texas, to begin six months of active duty training in the army's new reserve program.

The two are Pylts. Charles F. Davis and Charles R. Simmons. Both have been members of Battery C for about six months. They volunteered for the active duty recently and their orders to report were received a few days ago.

Davis and Simmons will receive transportation to and from Fort Bliss, quarters, rations and regular army pay while there. They will undergo basic and advanced training similar to draftees at the big anti-aircraft artillery training center.

On completing their six months tour of active duty in August, the two Guardsmen are scheduled to return to Cameron and resume training with Battery C.

## Eastern Star Bake Sale Set For Feb. 23

An Eastern Star bake sale will be held in the salesroom of Hefley-Stedman Motor Company in Cameron beginning at 8 a.m. Saturday, February 23.

Members of the organization will have homemade pies, cakes, candy and cookies for sale.

REMINISCENT OF FORTHCOMING BROILER CONTEST in Milam County is the picture of the 1956 contest, which like the one beginning Friday, March 1, will find many FFA and 4-H Club members as contestants. Each of those entering the contest will have a sponsor, who will furnish \$10 entrance fee. This fee provides 50 baby chicks, \$2 for tickets to the award banquet for sponsor and his contestant and \$1 for cash prizes to be awarded the poultry show winners. Sponsors will meet their contestants at the courthouse on Friday, March 1, awarded the poultry show winners. Contestants will raise the chicks according to standards at 4 p.m. and present him or her with 50 chicks. Contestants will take the best five chickens from his flock and enter them in the show to be held that day. Chickens will be judged by recognized judges on standard points for broiler shows and 10 prizes (cash) and ribbons will be awarded in each class—pullets and roosters. The awards banquet will be held at 7:30 p.m. that night.

## MODERN HOMEMAKING

RECIPES... HOUSEHOLD HELPS

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

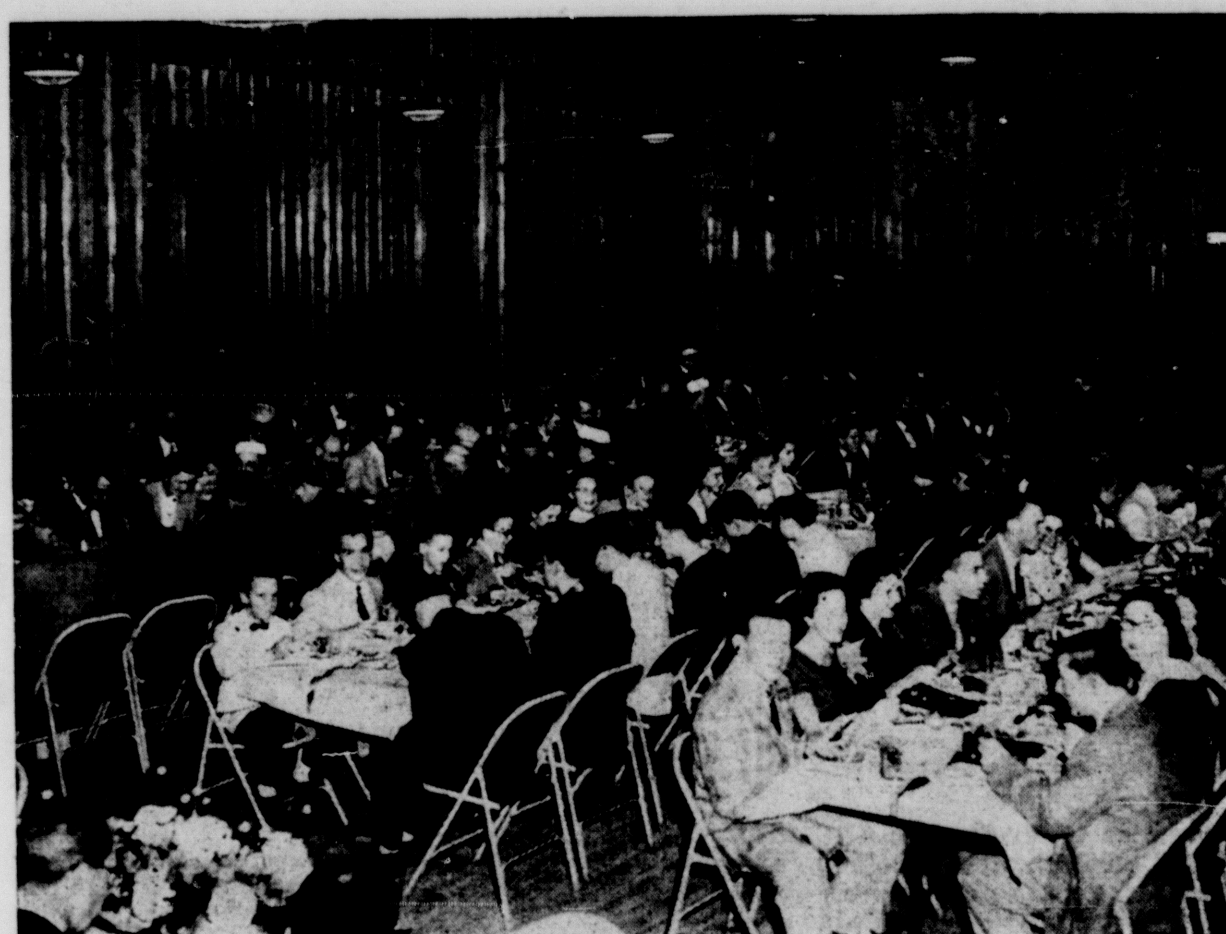

A meat dish is usually the basis of a meal. Such a dish may well be a meat and vegetable combination. Cold winter days are just right for steaming, deep brown stews, pot roasts and meat pies.

These dishes are appetizing, nutritious, and, at the same time, easy on the cook and on the budget. Easy on the cook, for meat and vegetables are all in one dish. Easy on the budget for since the meats steam slowly, less tender (and less expensive!) cuts are used.

For the rich brown color so necessary for eye appeal in beef and vegetable dishes, brown the beef slowly and thoroughly before adding liquid. So that vegetables keep their shape, texture and color, add them to the simmering beef just in time for them to cook until tender. If they cook for the several hours usually necessary for the beef, vegetables will become soft and lose much of their food value.

As in cooking any meat, low, constant temperature is important in cooking the less tender cuts of beef for beef and vegetable dishes. Low constant temperature will give a more flavorful, more tender product with less loss of natural juices.

For more free information on meat and vegetable dishes, send a postcard to the Home Economics Department, Lone Star Gas Company, Room 601 at 301 South Harwood, Dallas 1, Texas.

ONLY A SMALL PORTION OF YOEMEN gridiron players, their dates, parents and followers who turned out for the annual football banquet held on January 28 in Simon-George Memorial Hall. ### RECIPE OF THE WEEK

#### POT ROAST WITH VEGETABLES

Mix one-half cup flour, two teaspoons salt and one-half teaspoon pepper. Dredge thoroughly in seasoned flour three to four pound pot roast (round, chuck, English-cut.) Heat in deep heavy kettle or Dutch oven over medium gas flame, four table-spoons meat drippings or shortening. Brown roast thoroughly on all sides in hot fat. (Slow browning is important and should take about 30 minutes.)

Add one cup boiling water. Cover and cook over simmer gas flame two hours, adding more hot water if necessary to keep roast surrounded with moisture. Add six potatoes, cut in half, six medium onions, six small turnips. Cover and continue cooking until vegetables are tender, about 30 minutes.

Remove meat and vegetables from liquid. Add to liquid hot water to make two cups liquid. Mix thoroughly one-fourth cup flour and one-half cup cold water. Add flour-water mixture to hot liquid in kettle stirring constantly. Simmer five minutes. Makes six servings.

# Judge Smith Gives His Idea Of Present Need

By Judge C. C. Smith, Jr.

In the previous installments we tried to point out some of the structural defects which exist in the Courthouse, and we invited our citizens to come by and take a look for themselves.

It is easy to assume by driving down the street and merely looking at the building from a distance that it has the solidarity and strength of the Rock of Gibraltar.

This impression from long distance is deceiving and only a closer and more careful inspection can disclose what we have been trying to point out and that is in essence, that our Courthouse is 66 years of age and like anything else of that age is beginning to show the ravages of time and the elements.

However, it must be said that the fact that the 37 new courthouses built in Texas since World War II replaced structures that were younger than our Courthouse, attests to the skill and ability of the persons who built it in 1891.

### Basement Area

At this time we will discuss the basement area of the building. This area is occupied by the office of the Assessor and Collector of Taxes, including the motor vehicle title and registration division; deed and other title record storage and recording room (which are parts of the county clerk's office); and public restrooms.

The public restrooms have been the source of more criticism than any other part of the Courthouse, with the exception of the jury room. This is only natural since they are utilized by more members of the public than any other part of the building. Many criticisms of these areas are received by mail from persons who use them while passing through Cameron.

Actually, the toilets are poorly ventilated and lighted and it is practically impossible to keep them even reasonably clean. These areas are mopped down every morning but by the middle of the morning they are objectionable from the standpoint of there being water on the floors (because they are not water proof) and odoriferous. The stairs to these rooms are worn and dangerous for elderly people to climb or descend. The walls are of a type of construction that will not permit their being washed down in the approved manner, or will they resist vandalism. In fact, the whole problem is one of an inadequate and poor design. In addition to this, these areas are accessible to the public from the outside of the building 24 hours a day.

It is bad enough to be assailed with the stench and unsightliness of these areas but the users are additionally confronted with a variegation of unspeakable obscenities decorating the walls.

The accompanying photographs give some inkling of these defects.

(SEE PHOTOGRAPHS 1 AND 2)

The area occupied by the Assessor & Collector of Taxes is too small and there is insufficient room for preservation and storage of records. The physical area of this layout is such that it is inadequately ventilated and lighted and the employees there work under difficult conditions, in addition to being overcrowded and generally unsanitary. This office is presently allotted 1,202 square feet and needs an additional 702 square feet to accommodate its functions, which it will be well to keep in mind grow larger every year.

Probably one of the most important functions housed at the Coun-

ty Courthouse is the storage and safekeeping of deed and other title records. Every person owning property in the county is concerned with these records whether he realizes it or not.

There is absolutely no room left for expansion in this area because it is entirely occupied by existing records. These records grow rapidly from year to year, and something must be done in the immediate future to remedy the space situation.

In addition to this, there is no security protecting these records from destruction or damage by fire, storm or civil commotion by reason of the fact that they are located below grade level in this basement. Some of the accompanying photographs show storage rooms are by no means fire proof, so that there is constant peril of fire.

(SEE PHOTOGRAPHS

Nos. 4, 5 AND 6)

Also, the fact that this area is below grade and has poor ventilation subjects these records to accelerated deterioration, due to dampness and insect infestation.

(SEE PHOTOGRAPH 3)

It is well to bear in mind that all deed records of Milam County were destroyed by fire on April 19, 1874, a calamity from which we have not fully recovered.

If we were to have a fire in this area at this time, or should this basement area be filled with water resulting from a fire on another level of the Courthouse, or a storm, we would have sustained a damage from which we could never fully recover and one which would affect all property owners of the county. In addition, such a destruction would affect vital statistics records, some of which are irreplaceable from other sources.

We consider the problem of space and security in connection with our public records in the office of the County Clerk of such a serious nature that immediate and urgent attention should be given it.

We again urge our citizens who are interested to come and look for themselves. May we remind you that the Courthouse belongs to you as does the records maintained in it.

## A Tribute -- To Washington's Birthday!

The birthday of the man who carved out the future of the United States is celebrated throughout this land—and in many foreign countries. We refer to him affectionately as "The Father of Our Country," and, indeed that is what he was. Now, as our nation is going through another period of rebirth and rededication to the principles of Freedom, it is well to give George Washington even added laurels. For the truths he uttered then are now as vital to America's safety, well-being and progress as they were when our commonwealth was born. Let every American revere the name and the works of this truly great man!

WE SALUTE OUR TOWN!

### How Thimet® works.

As plant sprouts from treated seed, Thimet is absorbed and sent to all parts of plant tissue. Entire plant becomes toxic to insects. After Thimet's job is done, it breaks down, leaves no harmful residues in cotton fibre or seed.

**Systemic action of Thimet** gives plants "built-in" protection. You save the time, money and labor normally required for first six to seven weeks' spraying or dusting.

**Protects all parts of all plants** during critical early weeks. Ordinary sprays or dusts protect only parts of plants covered by insecticide. But because Thimet actually grows into the plant, it protects every leaf, every stem, right from the start. Plants actually kill insects before they can do damage.

**Eliminates problem of timing sprays or dusts.** No matter when thrips, spider mites and aphids strike, your cotton stays protected. Even when fields are too muddy for conventional spraying or dusting equipment.

**Proved in 3 years of testing... 1 year of grower use.** Thimet was developed by American Cyanamid after years of research and experimentation. It has been successfully tested by state and federal experiment stations throughout the south.

## Narcotics, Liquor, Women, Gambling: They're All Part of the Duval Story

By-FREDERICK HODGSON

SAN DIEGO, TEX.--No self-respecting boss-run barony is complete without its quota of syndicated sin. And Duval County, Texas, is no exception.

For the moment "the heat is on" and the gambling wheels are still, night sin-spots like El Ranchito are closed, most of the women of easy virtue are in exile and traffic in illegal liquor and narcotics is very much under wraps.

One disgruntled deputy sheriff, raging at the Rangers who put him out of business, moved his house of prostitution, lock, stock and women, all the way to Houston.

The Rangers, armed with injunctions obtained by the Attorney General's office, simply padlocked the town.

"It was just like the good old days of prohibition," said Captain Alfred Allee, regarded by his fellows and by his superiors in Austin as one of the greatest Rangers of them all.

The merchants of sin fumed and fretted, appealed to the courts for injunctions of their own, tried every trick that wily lawyers could dream up. It was no soap. The places stayed closed and the gambling apparatus, the wheels and the dice and the tables, stayed carted away.

Quite naturally Captain Allee, Attorney General John Ben Shepperd, and all the others who had declared war on the Duchy of Duval and on its up-to-then undisputed ruler, Boss Parr, were roundly cursed by the purveyors of iniquity. The machine went even further.

This writer has a long document before him right now, a document revealing plans for the "liquidation" of Ranger Captain Allee and Ranger Joe Bridge.

If these killings had been carried out, they would not have been the first political murders in that seething section of deep South Texas. Several years before Lawyer Jacob Floyd and District Judge Sam Reams had been marked for death. The pistoleros got their signals mixed and killed Floyd's son by mistake. The life of the Attorney General has been threatened three times.

The gambling, the women and the illegal liquor may have departed from Duval, for the time being at least, but the narcotics picture isn't so pretty.

Should you happen to be driving along the Benavides road, Highway 59 to Laredo, or along Highway 44 through Freer, you may hear the engine of a hedge-hopping airplane. It won't land so long as your car or any other car, except very special ones known to the pilot, is in the vicinity.

Once your car is out of sight the plane will touch down on the highway and its cargo will be quickly transferred to an automobile and the plane immediately takes off, flying low. This transfer always takes place in the early morning.

The cargo is heroin and marijuana. Sometimes the shipment includes diamonds and gold.

It is said by those who should know that 90 percent of all the illicit narcotics coming into the

United States is brought across the border from Mexico, most of it coming through Texas and through San Diego. And only a small proportion of the total amount of dope brought into Texas, and from here spread all over America, is ever seized.

I checked with the United States Air Force. South Texas is 180 degrees out of phase to the radar screen, concentrated as it is to spot planes coming in from the Atlantic or from the Pacific. Unless I've been badly misinformed, the Mexican border is wide open to any airplane, Russian or smuggler. Besides, a plane coming almost at ground level would be safe from radar in any case.

Previous articles in this series have pointed out that this utterly fantastic county is a product of its isolated geography, its history and its people. But history fades and people change. So in Duval. Democracy is raw, red meat, nourishing stuff on which a man, or a people, can grow strong. In Duval the people are feeding full.

George B. Parr is fighting, and fighting desperately, for his political life and for his physical liberty. There's something magnificent and awesome about a good fighter, even when he's on the opposite side.

According to Attorney General John Ben Shepperd, to District Attorney Sam Burris, to Lawyer Jacob Floyd of Alice, and to half a hundred other Parr opponents I've talked to, the Duke of Duval is fighting his last big fight. The Duke, they say, is through, finished, licked.

According to one of Parr's top attorneys, dapper Luther Jones of Corpus Christi, Shepperd, Burris et al are dripping wet. They couldn't be more wrong. So says Jones.

"Look at it this way," said Jones to me. "This is an election year and the politicians are making hay. All this will blow over. These civil suits and indictments are pure politics and once the shouting is over they'll be allowed to die very quietly. You're a stranger to this part of Texas or you'd know all of this has happened before."

As Luther Jones talked my mind went back to long ago when I was just breaking into newspaper work on the old "Chicago Evening American." In those days Al Capone was running the rackets. I once met the King of the Racketeers and a right charming fellow he was. Nobody ever pinned a murder rap on Al. He went to Alcatraz for income tax evasion.

In New York I've met Frank Costello, he of the television hands that Senator Kefauver made so famous. Talking to him at the Vesuvio Restaurant on West 48th Street, one of his favorite haunts, you'd never think he'd ever heard of a slot machine or a gaming table. Charming fellow, lovely fellow. He's in jail.

"And all this business about political killings in Duval," Jones went on. "They've been trying to pin a killing on Parr for years. Don't you think he'd have been charged with murder long ago if they could've got something on him?"

Jones, who is nothing if not frank, admits without any quibble that his client is no saint. He depicts George B. Parr as a man who gets what he wants when he wants it and who isn't overly squeamish about methods. And Jones had admitted as much in open court, many times.

The well-dressed little lawyer, who presumably knows what is going on inside the Parr machine, has some interesting ideas about the future of Duval.

Should George B. Parr lose his battle, even be sent to prison, this does not mean the end of the Parr dynasty. Another Parr, the Duke's nephew, Archer Parr II, is ready to take over.

Should this switch happen, Duval history would be repeating itself. George Parr deposed his father just twenty years ago.

Archer Parr is a personable young man, 35, a Marine veteran, a family man, educated, and well schooled in the rough and tumble of Duval politics. He has served as sheriff under his uncle.

George B. Parr "did time" in Federal prison, in El Reno, Oklahoma, back in 1936. The charge was cheating on his income tax. When he got back home to San Diego he was greeted as a hero, as a man who had suffered persecution for the sake of his people. He was met by a brass band and by dancing in the streets.

But he returned to find that wire cutters had been at work on the Parr political fences, that his father, Senator Archie Parr, the then reigning Duke of Duval, was unable to ride the range as of old.

George took over the power in Duval. His father went into exile, to live at the Nueces Hotel in Corpus Christi until his death.

Again George Parr is under indictment for income tax cheating, and again his followers say he is being persecuted for their sake. Should he again be convicted, on the tax charge or any one of a number of other Federal or State charges now pending against him, including a charge of using the mails to defraud, anything can happen in the county of Duval.

However, Luther Jones to the contrary, there is a vast difference between the Duval of 1936 and the Duval of 1956. (As a matter of fact, there is a vast difference between the Duval of 1954 and 1956, which will be the subject of the two final articles in this series.)

Twenty years ago the Parr power was solid as the Rocky Mountains, and seemingly as permanent. Men in Austin and Washington fawned upon the Duke, courted his favors, jumped when he crooked his little finger.

Parr could, and did, deliver 100 to 1 majorities in any election. He could lofly ignore the mundane doings of ordinary politics. He was the puissant prince, after the fashion of the Middle Ages.

But Parr has been projected, head over heels, into the unsympathetic new world of the mid-Twentieth Century. The alchemy of his time has changed his county. George B. Parr was born just 500 years too late.

Actually, it was more than alchemy that changed Parr's county. The last two articles of this series will deal with what radical changes can be made in a boss-ruled county when one Attorney General gets it into his head that feudalism has got to go.

These pictures show storage areas for such important papers here and the need for far greater safety measures.

## Yoe Future Homemakers Receive Degrees; Honor Their Fathers

Future Homemakers of Yoe High School met at 7:30 p.m. Monday, February 4, in the Yoe High Gym. This meeting was devoted to awarding the degrees and honoring the fathers of the FHA girls.

There was a regular business meeting at which the financial report was given. It was agreed to buy a flashlight and nine inexpensive candle holders. Mary Frances Leskar, a member of the Teen-age Consumer buying committee, gave a report on the use of a flashlight at night.

Anita Trdy, style show chairman, reported that the plans for the style show were underway, but a definite date has not been set. Ina Mae Yates reported that she has sent off for the door mat that is to be placed at the entrance into the living room of the homemaking department. Gloria Harber reminded the girls of the coming state meeting and the Easter Seal drive. Mary Ellen Richter, degree chairman, then took over the meeting to award the degrees.

Forty-nine girls received their degrees in an impressive ceremony. Gloria Harber, Mary Ellen Richter and Eileen Jacks took part in the ritual of the Conferring of Degrees. Mary Jo Varner, Marjorie Wilkinson, Mary Frances Leskar and Marie Mueck, received the chapter homemaker degree.

David W. McLain of Cameron is a junior journalism student at Texas A&M College.

McLain, 1954 graduate of Cameron High School, is a technical sergeant in the Aggie Corps of Cadets and a member of the famous 240 piece A&M band. He is a member of The A&M Chapter of Sigma Delta Chi, national professional journalism fraternity, and has been a reporter for The Battalion, official daily newspaper of College Station and A&M College.

McLain now is an advertising salesman for The Battalion and The Commentator, quarterly magazine of the School of Arts and Sciences, and plans to go into the advertising field after his graduation in May, 1958.

CAMERON TEXAS' HERALD, FEBRUARY 21, 1957

YOE ATHLETIC DIRECTOR LEO JACKSON receives gift of appreciation for "a job well done" from Ben Magness, Quarterback Club representative. Coach Jim Speer, having already received a token of the Cameron fans' best wishes, returns to his seat at the speaker's table. A similar token was given to Coach Murphy Webster, who is not shown. The entire 1956 coaching quad of the Yoeman football team will return to Cameron in 1957 to train the local eleven which begins spring training next Monday, February 18.

## Cameron-Buckholts Split Cage Games; March Of Dimes Wins

Yoe High School's "B" cagers were nosed out in the final minutes of the preliminary game Thursday night, February 7, by the Buckholts' team by a score of 42-39, the "A" squad won the main event by 62-48 and the March of Dimes was the overall winner with cash receipts of \$40.

He was a member of the seven-man staff that published an issue of the Hondo Anvil-Herald during the Spring vacation in 1956. Each year groups of A&M journalism students are invited by weekly publishers to gain practical application of their studies by putting out an issue of a weekly paper.

In the game between the two schools' "B" teams, the Yoeman trailed at the end of the first period 16-12 but went ahead in the following quarter to lead at half-time by 24-21. They still led in the

A valentine theme was carried out in decorations and games and refreshments. After the games,

scoring department at the end of the third quarter by 32-30 and as the game neared the final gun, Buckholts players began to show surprisingly good accuracy to win the contest.

Top man on the totem pole in scoring during the game was Buckholts' Gresak, who accounted for 14 points with field goals and five free baskets with a total score of 19. Strangely enough, all of Gresak's scoring was done in the first and final periods only.

High scoring talent for the Yoe "B" cagers was Josey, whose left-handed jump shots accounted for 14 points. Josey tied with Britz of the Buckholts squad for second place in the game's scoring.

Yoemen while getting off to a bad start in the feature game of the night began throwing baskets with accuracy and midway in their first period went ahead. They stayed in the lead with Buckholts threatening only once in the remainder of the game.

Gene Hillman of the Yoeman was high scorer for the game while Orsac of Buckholts was runner-up. Hillman collected 19 points and Orsac tallied with 15 points.

This was the final game for Buckholts for the 1956-57 season. Receipts taken in at the Yoe Gymnasium for the Buckholts-Cameron games amounted to better than \$40, all of which was donated to the Milam County March of Dimes.

The Texas Heart Association says: "Some forms of the heart diseases can be prevented, some cured and almost all helped with proper treatment after early diagnosis."

Equal control of cotton insects can be obtained with simple one-nozzle-per-row arrangements as with more costly and complex nozzle arrangements. In tests conducted by the Texas Agricultural Experiment Station over a five-year period, insecticides applied by using a single cone type nozzle per row gave slightly higher cotton yields than the use of more costly and complex nozzle

arrangements. Root knot disease can be controlled in garden soils by fumigation Dr. Harlan E. Smith, extension plant pathologist, says the fumigant should be applied from 10 days to 2 weeks before planting and soil moisture should be adequate for germinating seed. Local county agents can supply details on the process.

## Cameron Riders Drive To Show

Two wagons with 40 accompanying trail riders represented Cameron earlier this week in the three-day ride to Houston from Brenham. The drive started Sunday and was scheduled to arrive in Houston Wednesday.

Carroll Green and Charles Bailey, trail bosses of one of the wagons, had 19 riders accompanying them with a possibility of more being added before the drive got underway. Mary Bell Batte's wagon was headed by Wagon Boss Vaughn Jenness and 21 Cameron riders were to be on the trail under his leadership.

Roy Rogers and Dale Evans were scheduled to meet the drive at Spring Branch and ride into Houston with the group. A downtown parade and the opening of the Houston Fat Stock Show climaxed the trip on Wednesday.

Officials of the league announced this week that the annual city bowling tournament will be held on the successive Sunday, February 17 and February 24.

### Women's Group Holds Meeting

Executive board of the Women's Society of Christian Service, First Methodist Church, had a luncheon meeting Monday, January 28, at 12:30 noon in the Fellowship Hall of the Church. The main purpose of the meeting was for the officers to fill out reports on their work for the past four months. Mrs. E. A. Perrin, Chairman of Local Work, and the President, Mrs. W. A. Bonds, made arrangements for the luncheon. A turkey dinner with all the trimmings was enjoyed by practically all of the officers of the Society.

The devotionals was given by Miss Jane Henderson, who is home between semesters from the University of Texas. She attended the United Student Christian Council Conference at Oklahoma A&M, Stillwater, Oklahoma, during the Christmas holidays. Her devotionals was based on the theme of the

Conference, the Ecumenical Student Movement. The basic text for the Conference was "The Chosen People" by Dennis Bailey. In her devotional, Jane discussed religious life on the University of Texas campus as it pertains to ecumenicity. In a discussion period following the devotional, the women present showed interest in the University Religious Council, Religious Emphasis Week, The Christian Faith and Life Community, the Ecumenical Council, and the Student Christian Associations.

Following the executive meeting, the regular meeting of the Society was held at 3:00 p.m. The second lesson in the study course, "Youth In a Responsible Society" was held, with Mrs. Leland Green in charge.

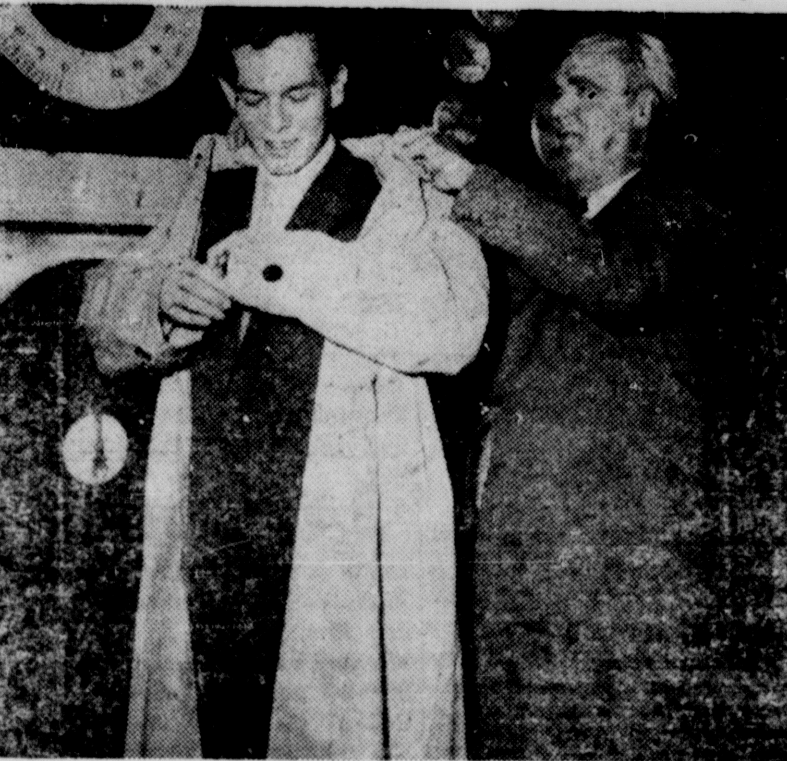

On Monday, February 4, all Circles of the Women's Society of Christian Service met at the Church at 3:00 p.m. for a business meeting and program "Whom Shall I Send" led by Mrs. Don Humble.

The Boy Scouts of America was incorporated at Washington, D.C., February 8, 1910.

Since 1910 more than 26,000,000 boys and leaders have been active in the Boy Scouts of America.

### MILLIONTH-RECORD COAT

## Burberry Honors Johnnie Ray!

SINGER JOHNNIE RAY'S Columbia recording of "Walking in the Rain," which has sold more than a million copies, has earned him a fantastic raincoat with solid gold buttons, emblematic of his achievement. The coat was fashioned and presented by the Burberry Company, in whose heart Johnnie has won special endearment. Here, Mr. Edward M. Hopkins, Vice President of Burberry's Ltd. of New York, makes the award, surrounded by hundreds of weather instruments predicting cloudbursts. Getting into the mood of the occasion, Mr. Hopkins remarked that Johnnie's record helps prove that "Walking in the Rain" needn't be "all wet!" Each gold button—representing a market value of fifty dollars apiece—is a simulated record with grooves and a label reading: Columbia Records; Johnnie Ray; Walking in the Rain; 1,000,000 records!

## News From Clarkson

Mr. and Mrs. Joe Hauk had a recent family dinner at their home. Present were their children Mr. and Mrs. Johnny Joe Hauk and Billy Joe of Crosby, Butch, Mr. and Mrs. Billy Hauk and children, Vicky, Joey and Phyllis, Mr. and Mrs. V. W. Hauk and Marilyn of Clarkson.

Mr. and Mrs. John Matyastik made a business trip to Temple

Thursday. Mrs. C. S. Robbins and Mrs. Marion Mitchell shopped in Marlin Thursday and also visited Mr. and Mrs. Billy Robbins.

Miss Nancy Vogelsang and Melvin Davis of Waco visited Nancy's mother, and family, Mr. and Mrs. Otto Mayer, recently.

Mr. and Mrs. Alvin Dodd of Cameron spent last weekend with

his mother, Mrs. V. D. Dodd and Inez.

Mrs. O. J. Rhodes of Smiley, Mr. and Mrs. Barry Bonham and children, Jimmy and Brenda Sue of San Antonio, Mr. and Mrs. Hub Hagg and sons, Mike and Steve of Houston, Mr. and Mrs. Bobby Wheelless and Suzanne, Mr. and Mrs. Archie Wilson and Mr. and Mrs. John A. Blasienz all of Bryan, were recent visitors in the J. A. Blasienz home.

A large crowd attended the second meeting of the Good Neighbor Club held at the recreation center Tuesday night, February 5.

There was various entertainment throughout the evening, and refreshments were served. Several of the ladies brought cakes for a cake walk and a number of new members were added to the club.

Meeting date has been changed from the first Tuesday of each month, to the second Tuesday. The next meeting will be March 12.

## Second Graders Make Display

A recent display window at the Ben Milam School was decorated by second grade classes of Miss Mary Randolph and Mrs. H. M. Yager.

Mrs. Yager's class of 22 students has been studying a unit on the farm. The children have written stories about the animals, crops and work on the farm. Farm animals were made of clay and each child brought something about the farm to add to the display. A farm scene showing the Circle Bar Ranch with its ranch-style home, corral, and green pasture with the clay animals was on one shelf. On another shelf were pictures about the farm that were made by the children.

Mrs. Yager's class includes Sherri K. Florida, Kathryn Geller, Shirley Koenig, Rebecca Lewis, Charlotte McFarland, Jane Mendoza, Diane Provasek, Shirley Scheler, Linda Shepherd, Linda Smith, Brenda Temp, Betty Fino, Pauline Garcia, Fred Molina, Ray Urban, Ruben Trevino, James Ray Solomon, Jack McKinney, Joe Morris Fisher, Jimmy Davis, Tommy Barton, and Rodney Anderson.

Miss Randolph's section used a theme of "The March of Dimes." The children cut out circles ranging from 1½" to 6" in diameter and covered them with foil to represent money rolling in. They cut paper dolls and made a sign saying "Follow the Crowd."

One of the iron lung coin containers was placed near the display and children were encouraged to drop in pennies and nickles.

The following children are enrolled in Miss Randolph's section. Allen Brewer, Eugene Brewer, Nelson Brummett, Jamie Corley, Inez Evans, Jack Glass, Brenda Holland, Dwain Howard, David Hutson, Joe Kirk, Madeline McClaren, Leslie Marek, Millard Pouncey, Judy Neumann, Joyce Howdy, Patricia Stidham, Thomas Thorpe, Bucky Wilkinson, Josephina Salazar, Emilia Chavez, and Juan Rios.

There are 272,000 women serving as Den Mothers in the Cub Scout Program.

## Worship together this week

We are well blessed. The doors of our churches and synagogues are wide open... waiting for us to enter. Set aside a time each week... a time apart from the "busyness" of living. You'll find more joy in each day, if you give some time each week to worship.

And the Wolf family here—will you just look at those boys! They're feeling very grown-up and proud as punch, going to a Service with Mom and Dad.

Here's Dave Judson and Bill Miller. Good friends for a good many years now. They hardly ever "talk" religion—they just always find time to get to Services each week.

Ever been a stranger in any town? Then you've known loneliness. And you know how comforting it is to come upon a church or synagogue... where the doors are always wide open to everyone.

# Golden Esso Extra

GASOLINE

prevents the  
"knock you cannot hear!"

Engineers call it "trace knock," and only the trained ear can hear it.

But trace knock, like any knock, robs your engine of its power, forecasts engine damage.

If yours is a modern car in any price class—especially if it's a 1957 model—prevent trace knock with Golden Esso Extra, the gasoline with the highest octane rating ever.

Use Golden Esso Extra. Added value from full performance offsets the small extra cost. Stop at the golden pump under your neighbor's Humble sign.

If you answer yes to any one of these questions, you should try Golden Esso Extra—world's finest gasoline.

- ☐ Does your car knock on "premium" gasoline?
- ☐ Is your car air-conditioned? (On an average, the engine pulls a 3-ton air conditioner.)
- ☐ Does the engine have a compression ratio of 9 to 1, or higher?
- ☐ Does your car have more than one carburetor or a "Power-Pack?"
- ☐ Is the engine rated at 200 horsepower or higher?

(These points become even more important as you add miles to a new car; anti-knock requirements increase when you pass the break-in point.)

## Adult Laxity; Juvenile Crime . . .

Cameron and Milam County for the past few years have been blessed with the absence of juvenile delinquency. Towns and cities in surrounding areas have not been so fortunate.

Will such continue locally? It is extremely doubtful. A group of youths in Cameron are currently attempting to organize a hot-rod club. They are seeking a sponsoring business or club and the interest of local adults. Yet, they are not finding these even from their own parents.

These boys are at present drawing up by-laws, under which one of the outstanding rulings is to obey all traffic laws. They are including in these by-laws means by which any member found breaking such laws is suspended from the club for a period of time in rearing in length with the more seriousness of the law which they have broken.

Such a club is not made up of a group of "young thugs" as one of the local members said at a meeting last Thursday night was the attitude of adults in Cameron. Yet, if interest is not taken in this group, they might well develop into just that category.

Purpose of such a club is to develop within said members the interest of motorized equipment. Club members in other places during the last 10 years have developed improvement of auto engines which has since been utilized in new models now appearing on the highways. They do not engage in races against other vehicles but in a race against time. It is educational, it is stress upon the need to obey existing traffic laws and it provides recreation for these youngsters which can develop into a means of livelihood for them in the years to come.

Ignore these youths and their desire to develop motor vehicles into a better mode of travel and you may well have them taking the wrong road in the future. Be interested in their aims and aid them in building a better car and utilizing such in the right manner, and they may well accomplish something far above the average for all humanity.

These boys are Cameron's youths; they deserve the interest of every adult in the city.

O

## Study Your Candidate . . .

In Cameron there are 804 persons, who paid their poll tax and became qualified voters. We urge that everyone of these 804 persons appear at the polls on April 2 and cast a ballot for the candidates in whom they believe.

As of last Saturday noon, five men had filed for a position on the city ballot. Each of these men undoubtedly have characteristics in which every qualified voter will favor. Each will have those in which the voters are against. Between now and the election, it is the duty of those voters to study both sides of the character of each candidate and decide which three are best suited to carry out the desires of your belief in what will constitute a good government. Then on April 2 go forth and cast your ballot for those three men.

And as a Cameron citizen, your duty does not end there. Keep up with what the entire council is doing in forthcoming meetings and see that they carry out the desires of the majority of the people. Keep them informed after each meeting or better still during each meeting as to whether they are following the wishes of the majority.

Failure of the council to do what Cameron citizens as a whole wish is not nearly so much the inability of the councilmen as it is the result of the apathy of the people.

O

## Mind One's Own Business . . .

Currently Cameron is the only city, large or small, in this area which is increasing in population, size and opportunity. Yet, are we all not failing too much to take an interest in the future of our city and its people?

Drouth as we have had for the last decade is a discouraging factor. Are we to admit failure just because of a few bad years? Our troops in World War II was driven from the Philippines; yet they did not surrender. They came back, drove out the enemy and won the war.

We are fortunate in having grown during the past decade. It would be unfortunate should we start back-sliding! But what are we doing to continue showing progress? Are we gaining new industries and businesses? Are we increasing the standards of living of those, who live here now? Or are we minding our own business too much?

Cameron and Milam County have the natural resources, the highways, the railroads, the labor power and the leaders to do much in the future. Let us utilize every one of these factors. Get new industry either in Cameron or in other cities and towns of the county. Increase production of our farms and ranches.

We must gamble with our time, our resources and our capital to show continuation of progress. Houston has done such and won. Texas City was thrown for a great loss only a few years ago but they have come back to grow larger than ever before. The entire Gulf Coast in Texas is doing so. What have these cities and areas that is lacking here? Only the desire and spirit to be residents of a progressive city and area.

Show a strong initiative in our desire to gain a bigger and better community! Then industry and business will seek a place in Cameron and Milam County.

### LITTLE RIVER PHILOSOPHER SAYS WAY TO END SURPLUS IS TO SUBSTITUTE TRACTOR BANK FOR THE SOIL BANK

Editor's note: The Little River Philosopher on his Johnson grass farm on Little River will get no where with his idea this week, but we don't guess you can blame him for trying.

Dear editor:

Here of late I have been giving considerable thought to the Soil Bank, since nearly every paper you pick up has an article or two on it, and where there's several aspects of the Bank that suit me, for example, I have no objection to leaving land unplowed and I never have objected to opening a letter and finding a check in it, it seems to me the Soil Bank idea hasn't been carried far enough.

What I mean is, putting a few acres in the Bank may be fine, but like any modern bank it ought to offer more services.

For example I can't find any provision for putting my tractor in it.

Now as I understand the purpose of the Soil Bank, it's designed to take land out of cultivation and reduce the surplus, and one of the worst culprits as far as producing a surplus is concerned is the tractor.

What the government needs, if it really wants to wipe out that surplus, is to establish a Tractor Bank. The way I see it, this would be a lot simpler than the Soil Bank. Wouldn't require any measuring, any inspecting, any complicated paper work. All you'd have to do is mail your tractor key to Washington, let them mail you a check back, and when the surplus was down to where the experts figured it was safe to return your key, let em drop it in the mail. If your tractor doesn't have a key, have one installed. After all, a man ought to be willing to do his part to end the surplus, without relying on the government for everything.

Now I know that somebody is gonna say, what about the man

### Marcy Jean Looney Dies In Galveston

Funeral services were held at 2 p.m. Saturday, February 16, from Green Funeral Home Chapel for Marcy Jean Looney, eight-month-old daughter of Mr. and Mrs. John Arthur Looney of Cameron Route 4.

Rev. H. R. White officiated at the final rites. Interment was in Oakhill Cemetery.

The child died Friday at 1 p.m. in a Galveston hospital following a long illness.

She is survived by her parents; two sisters, Sharon Ann and Mary Keith Looney, both of Cameron; maternal grandparents, Mr. and Mrs. Alex Groppe of Cameron, and several aunts and uncles.

### Community Party Set Friday In Ben Arnold

Ben Arnold Community Club will have a community party at 7:30 p.m. Friday, February 22, in the Ben Arnold School. Talented persons are invited to perform no matter where they are from, club officials said.

Entertainment scheduled for the party will include a talent show, cake walk and do-si-do. Refreshments will consist of sandwiches, coffee and cold drinks.

Everyone is cordially invited to attend.

With two tractors, or the shady character with two tractor keys? Well, naturally the banking business is not all smooth sailing, you are bound to find dead beats in any enterprise, but on the whole, if the check was big enough to get you through the year, there wouldn't be many people who'd slip around and sort of bootleg a little plowing on the side and after dark. At least you sure would not catch me doing it.

If you think this idea has any merit, I'd like to say I've got my key here in my hand ready to drop in the mail.

Yours faithfully,  
J.A.

## Houston Man Recalls Tom & Jerry Era Here

This week The Cameron Herald is running a picture of the local fire station, Tom and Jerry, members of the volunteer fire department and fans of the then local fire-fighting crew in 1903.

However, for this installment of the local series of stories on the Cameron Volunteer Fire Department, we will use excerpts from a letter received this week from Jesse Wilkerson, who spent his childhood in Cameron and now lives in Houston.

He writes, "Your article and the picture of the Cameron Fire Department as it was in the early nineteen hundreds certainly brought nostalgic recollections of an era that seems so long ago. A fire-alarm in those days was like a stampede of an Oklahoma land rush. Everybody went, on foot, by buggy, wagon or horseback.

"From the scene as visualized in the photograph, I believe the picture was taken prior to 1906. When the hotel was operated by my Uncle Henry Ruby, there was a fairly large sign in front, reading, 'Hotel Ruby, Rates \$1.00 per Day.' This sign does not show in the picture. I know that Uncle Henry did not take over operation of the old Sisson Hotel before 1906.

"During my boyhood days in Cameron, I knew practically everybody in town, and I might add that most everyone knew me. However, I would not attempt to identify the unknown in the picture, or add to the list of names appearing in your article. It would be like calling a roll of honor and I wouldn't want to omit a single person.

"My recollection of the horses, Tom and Jerry, dates back to around 1901, when I was six years of age. Quite often I would ride with Morgan Dickinson, when he would take the horses out for exercise. Morgan would always tell

me to hang tightly to the seat, for when we came to a certain place, Tom and Jerry were certain to break into a run. Sure enough it always happened just as he said. Morgan tried to make me believe that it was impossible to hold them, but I noticed he always gave a tap to the bell on the floor-board, just before the horses started.

"At the end of the run I was white-faced with excitement. My hands were stiff and red from my death-like grip of the railings lining the driver's seat. To a boy of six this was a thrilling experience, and scared or not, I was always eager to go again.

"Tom and Jerry were beautiful horses, almost perfectly matched iron-grays. They possessed unusual intelligence and were well trained. It required only a few seconds from the time of the alert bell, and the release of the chains of their stalls, before the wagon was ready to go.

"Despite the long years of a very strenuous existence, Tom and Jerry lived to a ripe old age. Surely they are a legend that we old timers will always cherish.

"In these days we erect monuments and statues to great heroes and honored men. What would be more fitting than a monument or a statue of two splendid animals, who gave their very best, day and night; heroes of a nearly forgotten era — Tom and Jerry."

Churches of all denominations sponsor nearly half of America's 111,000 Scout units.

The 50,000 campers expected at the Valley Forge National Scout Jamboree in July 1967 will make it the largest gathering of youth in history.

Sixty-one free nations have Boy Scouting.

## Ann Wimberly Gains Honors At College

Ann Wimberly, daughter of Mr. and Mrs. D. S. Wimberly of Cameron, has recently been nominated for membership in Phi Theta Kappa honorary society at Wharton County Junior College.

Eligible students must be carrying 15 hours of credit, 12 of which must be academic and have a 2.4 grade ratio in the courses.

Miss Wimberly is also in the Pioneer Business Club, a member of the Starlettes and department editor of the Pioneer Log Annual. She was also recently named to the B and Better Honor Roll.

—  
As voted by the body, members of the board will receive \$7.50 for each day they spend in reaching their decisions. First meeting of the group will be held at 10 a.m. Monday, March 11.

**Street Paving**  
Councilman Charles Brady raised the possibility of starting the paving of streets within the city. As explained by him, the plan will be with property owners on one side of the street pay-

ing 45 percent of the cost of paving of streets in front of their property, those on the other side paying 45 percent and the city the remaining 10 percent.

Street improvement under this plan will include paving of the street and installation of curbs and gutters. Estimated cost will run about \$3.58 per running foot.

Payment of the property owners' share of such costs can be made over a five-year period upon agreement of such owners and the signing of a mechanic's lien covering the amount on an interest rate of five percent. This interest rate will be this low if the city agrees to take over the contract of handling this phase of the plan as with a municipality holding the contract, banks do not have to pay income tax on interest received.

Councilman Roy Griffith made a motion that such a plan be tried in carrying out paving of 10th Street to be followed by paving of other streets upon agreement of property owners. This

ordinance to all. There were a group of Cameron citizens appearing individually at the meeting. None raised any questions of the city council.

Upon this announcement, the council approved sending of letters to residents and businesses in the city explaining the garbage

preliminary planning on paving of 10th Street was adopted unanimously by the council.

## Milam Bureau In Ninth Year

Ninth birthday party of the Milam County Farm Bureau will be held at Simon-George Memorial Hall beginning at 6 p.m. Thursday, February 21, with Millard Shivers of Waco, organization director of the state bureau, as speaker.

Planned by a group of farmers and ranchers meeting in the county agent's office in 1947, the Milam bureau was organized in 1948 with S. W. McClaren, Jr., as its first president. Membership in those initial nine years has grown from a handful of farmers and ranchers to more than 1,100.

There were a group of Cameron citizens appearing individually at the meeting. None raised any questions of the city council.

Highlights of the meeting will be a picnic style dinner and a youth talent show. Some boy or girl will be given a pig at a Swine Committee drawing.

Presiding at the meeting will be O. G. Tumlinson, current president of the group. Other officers of the bureau in Milam County are Robert Jungmann, first vice president; Mrs. Bernice Charles, second vice president; William F. Arthur, service agent, and Miss Lenora A. Bickett, office secretary.

Directors are V. L. Angell, Mrs. Charles Bailey, Charlie Lucko, F. H. Scarborough, John A. Smith and J. D. Turney, all of Cameron; John Slovak, Arthur Inge and Joe F. Zajicek of Buckholts; Ed Miller of Burlington; W. A. Conn and Herbert Haine, both of Thordale, and Charlie Duncan, Everett Shelton and J. D. Woolverton, all of Rockdale.

## Drummond-Lands Engagement Told

Miss Shirley Drummond's engagement to Jack Lands has been announced by her parents, Mr. and Mrs. Daniel D. Drummond of Tracy.

Lands' home is with his grandparents, Mr. and Mrs. T. M. Landford of Rockdale. He is a graduate of Rockdale High School and is now a student at the University of Texas.

Miss Drummond, a graduate of Sharp High School, is also a student at the University of Texas.

Wedding date has not been announced.

The worst offenders in the insect world. Copies of the guides may be obtained from the offices of local county agents and those recently released include stored grain insects, cotton insects and insects and diseases which attack fruits and nuts.

## Mexican Supper Set

A Mexican supper will be given by St. Joseph's Catholic Church of Rockdale Wednesday, February 27, beginning at 6:00 p.m. at the Rockdale Legion Hall.

The Ladies Altar Society will be in charge of preparations and serving the supper. The public is invited.

Cotton diseases are estimated to have cut cotton production in Texas during the past five years by more than 2,000,000 bales. Seedling diseases are credited with about 20 percent of the losses. Angular leaf spot or bacterial blight, root rot, boll rots, fusarium wilt, root knot, verticillium wilt, nematodes and rust are listed by Extension Plant Pathologist Harlan Smith as other diseases of great economic importance.

## John Reichert Named National Science Winner

John D. Reichert, 18, senior student in Stephen F. Austin High School, has been named one of 40 national preliminary winners—the only one from Texas—in the 16th annual Science Talent Search. He is the son of Mr. and Mrs. Ben F. Reichert, 2803 Bonnie Road.

Stephen F. Austin High School is one of 23 schools in the entire country that have produced more than one winner in the 16 years of the talent search. Reichert is the second winner from Stephen F. Austin. The first was Virgil Barnes, a 1953 graduate who is now a senior in Harvard.

Young Reichert previously earned national recognition when he represented the first annual Austin Science Fair of Texas at the National Science Fair in 1956. There he won a fourth award in physical science for his exhibit on the separation of the cations in alloys and steels by paper chromatography. His project report for the Science Talent Search was based on additional research in this same field.

His record of five honors in science fairs is the highest reported among the 40 winners. His most recent awards were first place in the physical science division of the Texas Junior Academy of Science competition in Brownwood last December; a first place in the same contest in 1955; and a first place award and one of 20 special national awards in the National Science Achievement Award six-state competition in 1955. Mrs. Edna Boon has been his faculty sponsor in these contests.

After graduating from Stephen F. Austin, Reichert expects to enter the University of Texas where, as one of 30 high school juniors, he attended a special chemistry course last summer.

As his talent search project, Reichert has determined that chromatography, a technique that causes a chemical to "paint" a picture of its composition on specially treated paper, can be used to show how much of a chemical is present as well as to identify it. A professor has employed Reichert to do the chromatograms for his research study.

Reichert is active in sports, band, his church, drama and debate and is president of the student council.

The 40 winners—nine girls and 31 boys—are being invited to Washington, D. C., March 7-11, for an expense-paid trip to attend the Science Talent Institute. Here one boy or girl will be awarded the \$2,800 Westinghouse Grand Science Scholarship. Other scholarships, bringing the total to \$11,000, will range from \$100 to \$2,000.

The trip winners, 14 to 18 years of age, were chosen by a panel of judges after a nationwide competition in which top-ranking seniors in all the public, parochial and private schools in the continental United States were invited to participate. Contestants, representing every state in the Union and the District of Columbia, totaled 20,145, of whom 3,122 completed the stiff science aptitude examination, submitted recommendations, and completed a documented report on "My Scientific Project."

Designed to discover and develop scientific ability among high school seniors, the science talent search is conducted annually for the Westinghouse science scholarships by Science Clubs of America.

As a general rule, the average first grader should read five, seven, or 10 books, and a sixth grader will have read from 30 to 50 or more reading texts in his first six years of school.
